Hi Nerida,

Please use the below text in relation to any Risk Disclosure Questions...

"The government regulator who oversees Tandem Skydiving in NZ is the Civil Aviation Authority. Specifically, Skydive Queenstown (NZONE Skydive, Skydive Wanaka, and Skydive Southern Alps) must hold a CAA Rule Part 115 Adventure Aviation Operating Certificate issued under the Civil Aviation Act.

CAA's safety requirements and regulatory framework is much more comprehensive than Worksafe's adventure activities regulations which is why Skydive Queenstown aren't also required to respond to the adventure activities framework."

Please see T&C's here - <https://www.nzoneskydive.co.nz/terms-conditions/>

Regards

DREW HAMILTON
